EQUI-JEWEL®

RICE BRAN CONDITIONING SUPPLEMENT

Equi-Jewel is a research-proven stabilised rice bran supplement, designed to increase the energy density (calories) of a ration. It can be added to boost calorie intake, or to replace part of the daily ration to reduce the concentrate consumption, so it can be a good way to encourage picky eaters. It is a pelleted supplement - the high oil and soluble fibre levels are naturally occurring, making it very compatible for use alongside the other feeds in our specialist thoroughbred breeding range.

Equi-Jewel® is suitable for:

- Sales Prepping Foals & Yearlings
- Mares with limited appetites that need extra conditioning. Older mares can also benefit
- Overactive stallions during the covering season

Features & Benefits:

- A highly effective way to add condition, topline and muscle definition
- A digestible and palatable form of oil
- Caloric density – an easy way to add concentrated calories as a safer source of energy
- Added calcium in the form of BMC™ for gastric health and bone development
- Vitamin E and selenium as antioxidants
- Outstanding coat and skin condition

Feeding Guidelines

Equi-Jewel can be fed at a rate of 500 g – 1 kg per day to achieve appropriate body condition, or up to 1.5 kg per day when extra conditioning is required.

Composition (List of Ingredients)

Stabilised Rice Bran, Calcium Carbonate, Maerl (calcareous marine algae), Vitamin E, Selenium

Nutritional Information

Crude Fibre	6.5%
Crude Protein	12.5%
Lysine	1.4%
Methionine	0.38%
Crude Oil	18.0%
Starch	20.0%
Sugar	9.0%
Digestible Energy	18 Mj/kg

Vitamins

Vitamin E 440 iu/kg

Minerals

Calcium	2.25%
Phosphorous	1.50%
Magnesium	0.72%
Selenium	1.0%
