

RE-COVERY MASH

REHYDRATION MASH

Re-Covery is a quick soaking Mash to support optimum rehydration and recovery after foaling, during box rest and recuperation after illness or when travelling. With the inclusion of electrolytes, Vitamin E and live yeast, this high fibre, banana flavoured mash can be fed strategically, as and when needed, to entice the fussiest of drinkers and feeders.

Re-Covery Mash is suitable for:

- Mares, pre and post foaling
- During recuperation from illness, or horses on box rest
- During travelling and sales prep
- At times of stress, where appetite is reduced or to increase water intake

Features & Benefits:

- Low Starch, low sugar formulation based on 'super-fibres' to support hindgut health
- Feed alongside any diet – no vitamins or minerals to cause nutritional imbalance
- Live yeast to support gut flora and stabilise pH
- Vitamin E to support recovery and immune response
- Quick Soak in warm water within 5 - 10 minutes
- Encapsulated banana flavour to entice the fussiest of drinkers & feeders

This product is designed to be soaked at a ratio of 1 part feed: 2 parts water or to the desired consistency i.e. add 1 litre of water to 500 g of Re-Covery Mash.
